

Installation of Heat Pump.

The heat pump location is indicated on the plan below (behind a fence at the back of the car port)

It is not visible from the front of the house, or from any neighbouring property as indicated by approximate location on map below (which does not show the car port and fence):

Indicative image below in planned location (note the blue lines relate to the keep clear area for air flow and are not part of a structure).

From the above view, there is > 1m from the neighbouring property (), also as shown below (heat pump will be where the storage box is currently located):

Dimensions of outside unit:

Width 1,100mm

Height 1565mm

Depth 450mm
